

Apply with an Outside-of-the-Box Idea:

Have an idea or work you want to pitch that doesn't quite fall into one of the other opportunities, but you still think it aligns well with New Works? Many current programs at New Works grew out of a conversation with a community member in direct response to an identified need for a unique programming opportunity. This is an open space to start a new conversation.

We strive to keep an open and welcoming space for new conversations and projects, but please keep in mind we have limited resources to respond with! We might be able to respond with partnership, studio space access, or other collaborations. Or at this point it might just be an open conversation to keep in the back of our minds if/when an opportunity arises for further support.

Interested in sharing an idea?

Please share your thoughts by email to info@newworks.ca and include "Out-of-the-box Idea:..." in your subject line. Consider responding to:

- What new project are you excited to pitch and why do you think New Works is the unique and best-suited partner to collaborate in support of this idea?
- What project or opportunity do you think is currently missing within the local dance community? Why do you think that gap is not being met by other organizations?
- What current or past New Works programming have you found valuable? How would this new project build upon or expand already existing work at New Works?

Thank you in advance for your time. We look forward to hearing from you.
